## Comments for ECON115007\_2020F\_Discussion Group--Statistics - Kritika Goel

### What are the strengths of this course?

Comments
STATA
well organized, professor very helpful and available for extra help
It is interesting to conduct a research project.
I definitely learned a lot about STATA / how to use it. I think the quizzes were useful as it made you learn how to use STATA.
Each class was structured the same so I knew what to expect going into the weekly class.
Basics of stata
I liked that the discussion taught something to supplement the lecture and wasn't just reviewing we learned in class.
It is a good support for lectures.
Clear and focused
learned how to use stata
The quizzes ensure that the students show up to class and the lectures are super interesting.
Nice
Very easy to follow, great teacher.
Learning how to code.
The professor was very helpful in going over the different processes of STATA
Very well organized, easy to follow along, and clear connections made between discussion and stats class.
Professor is nice
Interesting material

### How could the instructor improve the course?

Comments
Stand to the side to not block the projector/screen
leave more time to take the quizzes, more in-depth explanations for the problem sets
I think maybe speaking up more and going a little slower in class could be helpful.
There could've been more guidance when it came to the research paper. We did not have an example to go off of so my group was flailing for a bit.
I never thought I really knew how to use the stata program. I would just copy what was going on in class, nothing really came from my own head.
The notes were hard to see a lot of the time because it was being typed on STATA, so maybe position the desk somewhere else.
None
Align better with the pace of our actual stats class
more teaching and less just copying her work
Assignments outside of class other than working on problem sets for the final paper.
Nothing
Help us memorize the material more.
Make the board more visible during lecture.
Make it a bit easier
Better communication on the Problem Sets
Hopefully, we can have more one on one time.
Maybe allot more class time for groups meeting or going over papers together where we can go right to you to ask questions.

### Would you recommend this course to other students, majors, etc.? Why or why not?

Comments
Yes, Ms. Goel was great.
Yes, I think it helps apply concepts from statistics more easily
Yes, she was a good teacher.
Sure
Yes, it was interesting connecting coding to stats.
Yes
Yes, required
i think this course is useful to learn the software
Yes because it is a very good skill to learn about the STATA technology.
Definitely
Yes! Very interesting, but not sure if I will remember the stata material.
Yes, because coding is interesting.
Yes, statistics is necessary
Yes because it teaches important skills and is a good supplement to the course
Yes! I think it taught me necessary skills.
Yes, I found it to be very interesting and I think writing the paper was a challenging but rewarding process.
