How would you rate this instructor overall as a teacher?

## Comments for ECON115002\_2021S\_Discussion Group--Statistics - Kritika Goel

### What are the strengths of this course?

Comments
Learned how to use stata
Clear instructions and she explains things well
encourages collaboration
Knew what to expect
Well set up to teach students.
organized
This course taught me how to use stata well and kept me engaged and on track toward completing my research paper.
Very related to the Statistics main course
Very interesting to learn STATA
I can learn practical skills.
You get to actually learn how to apply statistical knowledge to a dataset. It also helps you review the material you learn in stats.

### How could the instructor improve the course?

Comments
None
Not sure
sometimes I find myself unable to hear the instructor clearly
Clearer instructions for problem sets
N/a
NA
They could improve this course by integrating it into the Economics Statistics curriculum better and having more overlap between the actual class and the lab.
Maybe assign more points toward quizzes and less point for the research project
Some more in-depth instruction before quizzes, but overall very fair and clear
all good
N/A

### Would you recommend this course to other students, majors, etc.? Why or why not?

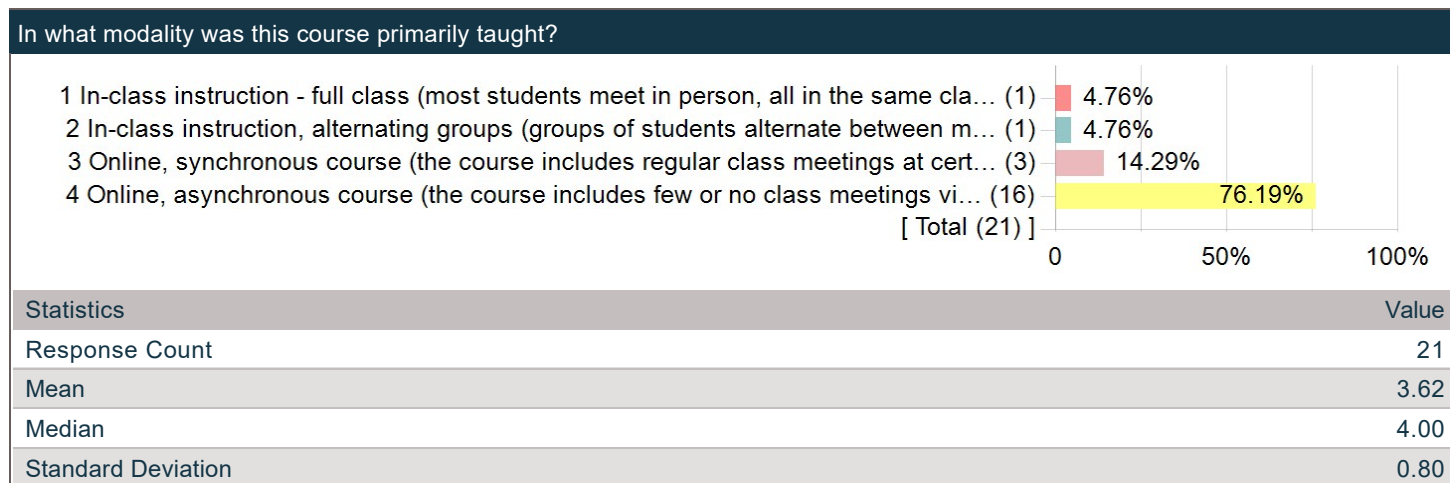

Comments
Yes because it is required
Yes, the professor was very good.
Yes for this discussion session but not for the bonded statistics course
Yes
Yes – very instructional.
yes, its essential for Stats but is good practice
I would recommend this class to other students because I believe it teaches you how to use Stata well and incorporates the research paper into what you are learning.
Yes. Very good elementary class for the uses of STATA
Yes, if you take econ stats, this course is a good one because you learn how to use STATA
yes
Yes. I feel much more confident analyzing data with STATA.

**Additional Comments:**

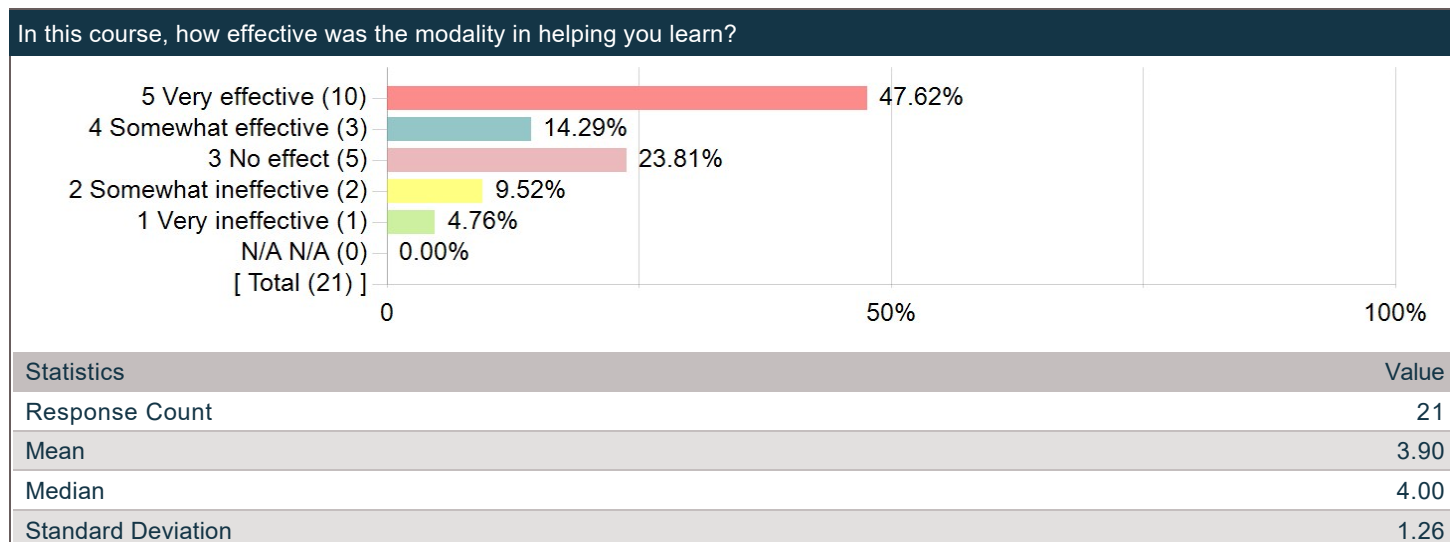

Comments
n/a
all good
Great TA! I had Kritika

## Fall 2020 Questions

### In what modality was this course primarily taught?

### In this course, how effective was the modality in helping you learn?

### Please explain why you think the course modality was effective or ineffective in helping you learn.

Comments
What we had to do was very straightforward, so asynchronous lectures worked well.
No matter how the course was taught, online or in-person, I will take it anyways
Liked I could follow along on my own and pause when I needed to. Also that I could do it whenever I chose
Teacher walked through material at a great pace.
it wasn't its own full course so online was fine
This modality allowed me to complete course material at my own convenience rather than having a rigid class time which in turn allowed me to be more engaged with the material.
I can watch recordings for review
It allowed me to be flexible in learning the material and doing the labs, which was really helpful. The screen and audio is what is most important for this course, so having a Panopto recording with the screen and Kritika's audio was exactly what I needed. I think this course could stay online asynchronous going forward, even when Covid ends (assuming the TA likes this format as well).
